Dr. Friedmann Treats Patients Selected by Government at a Clinic in Bellevue Hospital.

DOCTORS PRESENT

MUCH IMPRESSED

German Savant to Return to Berlin in Two Weeks, but Will Come Back to the United States Soon.

By International News Service EW YORK, March 22 .- Dr. Friedrich Franz Friedmann today held 150 men and women spellbound at the point of his hypodermic needles in the clinic amphitheater of Bellevue hospital.

With exquisite skill, which called forth the highest proise of noted technicians present, the young German savant treated twenty-three patients selected by the government for a further test of the turtle germ vaccine. The patients ranged in age from a baby boy, 2 years old-upon whom Dr. Friedmann accomplished an exceedingly rare operation-to men and women of two score years. Eighteen of the cases were pulmonary in the second and third stages for the most part and five surgical, that is, tuberculosis of the bone, joint or knee gland. Eight of the cases were girls and women.

Seven patients who were treated by Dr. Friedmann at Bellevue last Monday walked into the clinical chammer and publicly announced their condition. Another patient-almost dying when he received the injection six days ago was wheeled in.

Patients Questioned.

The patients were questioned by Dr. John Winters Brannan of Bellevue, who after each had told of his condition, summed up the situation for the clinic in these words:

patients is practically unchanged. Six
have gained from three-quarters of a
pound to four and one-half pounds in
the day and evening percentage of the season's very best.

Easter liles, ferns and other symbols will be used to decorate the churches.

The services will be held throughout the day and evening percentage. weight. Dr. Friedmann looks for a

weight. Dr. Friedmann looks for a change under subjective treatment. The patients certainly feel no worse. Weight gains are not indicative. We count on a gain in weight here due to nursing and wholesome food."

With the previous patients out of the way, new patients were wheeled in, thighs and in some cases arms were bared, and Dr. Friedmann began injections. The first patient was a ravenhaired little girl of 14, whose father had died of tuberculosis. She was in the second stage. Dr. Friedmann made the injection quickly and patted her pigtails encouragingly when she was wheeled away. was wheeled away

Three Girls Treated.

Then followed a 13-year-old girl in the third stage of the disease; a blond-haired girl of 25 and a little Italian girl with lupus of the nose and tuberculosis glands. Both the intravenous and intramuscular injections were given in this case. She grimaced with pain when the cloth bracer was tightened about her arm, but looked at Dr. Friedmann with the confidence with which children seem to regard

him.

Dr. Friedmann injected a tenth of a cubic centimeter in this child's arm and one-half of a "C. C." into her thigh. After one incipient case had been rejected at the suggestion of Dr. Brannan because examination had not been made, three more girls and women were

The twelfth case was that of a two-year-old boy, upon whose right cheek was a tubercular skin lesion. There was also lupus on the right side of the face. Dr. Friedmann examined the baby and then announced that he would inject into the invulse vein because of baby and then announced that he would inject into the jugular vein because of the difficulty of getting into veins in the elbow. He patted the youngster on the cheek while one of his assistants held the little fellow by his whitestockinged heels so that the large vein in the neck would stand out more clearly. The baby moaned "Mamma, Mamma" while he was receiving the injection.

Most Interesting Case.

The last two patients suffered from tuberculosis of the kidneys. One of them had had a tubercular kidney removed last November. He has two fistulae, one seven and the other eight centimeters in depth. Dr. Friedmann expressed himself as being confident of this case.

a cure in this case.

After the clinic Dr. Friedmann was congratulated upon his technique and surgical skill by a number of the physicians present.

Direct Evidence

For several months we have been telling you what Hood's Sarsaparilla is made of and the ailments it has been curing for more than a third of a century. Below we give a letter telling particulars of one of the many cures it has effected, and we leave it for you to say how many and how strong adjectives we might truthfully use in introducing a letter of this character. C. I. Hood Co., Lowell, Mass.

"208 Upper Front St., "Exeter, N. H., May 27, 1913.

"Gentlemen: - It is with the sincere purpose of benefiting others I write what Hood's Sarsaparilla did for me.

"On getting up one morning I found on the calf of my right leg. Soon the into the flesh, discharged freely, and me to use a rubber bandage, but the sore grew worse until

CABINET DINNER COMES APRIL 16 as yet not been learned.

First Formal Affair to Which Members of Official Family Are Invited.

By International News Service.

By International News Service.

WASHINGTON, March 22—The first formal dinner by President and Mrs. Wilson will be given on April 16 in honor of the members of the cablnet.

As soon as holy week is passed, Mrs. Wilson and her two daughters will be besieged with invitations to teas, dinners and theater parties. Mrs. Wilson has not yet accepted any invitations to private houses, to lunches or teas, as Mrs. Taff did, and Washington hostesses are anxious to know if Mrs. Wilson will continue to refuse to go to private entertainments.

Mrs. Wilson will occupy a box at the annual meeting of the Southern Education association, which will meet on March 26.

A number of Wilson relatives have arrived in Washington to spend Easter at the White house. These include Prof. Stockton Axeon of Princeton university, a brother of Mrs. Wilson, and Fitzwilliam MacMaster Woodrow, a Princeton student and cousin of the president.

HOW CHRONIC COUGHS

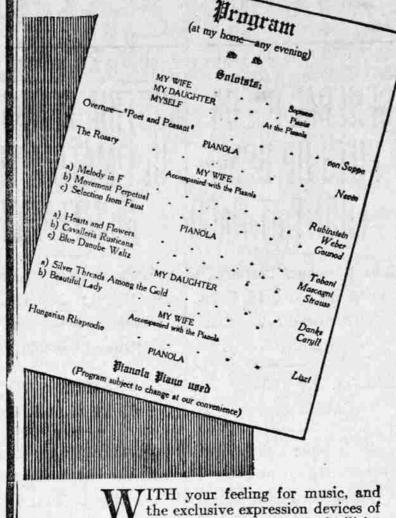

Are Being Cured by Vinol. Did you ever cough for a month?

Then just think how distressing it must be to have a cough hang on for

Mrs. Maria Primrose, of 87 Newell Mireet, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough, which kept me awake nights for fully three months, and felt tired all the time because my rest was broken so much. The effect of taking your cod liver and iron remedy. Vinol, is that my cough is gone. I can now get a good night's rest, and I feel much stronger in every way."

It is the combined action of the medicinal elements, cods' livers, aided by the blood-making and strengthcreating properties of tonic iron which makes Vinol so efficient in curing chronic coughs, colds and bronchitis -at the same time building up the weakened, run-down system.

Try a bottle of Vinol, with the understanding that your money will be returned if it does not help you. P. S. For rough, scaly skin, try our Saxo Salve. We guarantee it.

fore says the wind blew the clothes off ome of the bodies found and that hickens were stripped of their eathers.

Knapp Again Appointed.

WASHINGTON. March 22.—Presiding Judge fartin A. Knapp of the commerce court, today reas redesignated by President Wilson to act as a rabitrator under the Erdman act. The designary architecture of the commerce of ers have definitely resolved that Scutari shall be part of Albania, and even its capture by the Montenegrin beseigers will not alter this decision.

One More Effort.

LONDON, March 22.—"It seems that the army, despite the rejuctance of Izzet Pasha, the commander in chief who recently offered to resign, has been ordered by the government to advance and there is a rumor of a final effort by sea and land before agreeing to surrender Adrianople," says the Constantinople correspondent of the Times.

Turks to Fight On.

ADRIANOPLE, March 22.—Shukri Pasha, the commander of this fortress, and his troops are determined to continue the defense they have now carried on for five months, and all reports as to offers made by them to surrender may be dismissed as pure inventions. Only starvation can force the capit-ulation of the beleaguered garrison. Food is still regularly distributed among the population by the military authorities and there are considerable

supplies.

Perfect order prevails within the city. The Bulgarian besiegers are making no progress and their occasional assaults have been futile. The intermittent bombardment has done no harm to the defending forts.

barm to the defending forts.

Discord is said to prevail among the sillied armies. The Servians brought up to assist the Bulgarians are not participating in any of the operations.

The report that Shukri had ordered the Greek and Armeniau bishops to be hanged because they had drawn attention to the alleged miseries of the popilation, is groundless. It has aroused much indignation here, the two prelates themselves being most energetic

military population of the city.

Declines to Comply.

Declines to Comply.

VIENNA, March 22.—Beyond promising that the future bombardment of Scutari will be directed against the fortifications and not against the town, Montenegro's reply to Austria's remonstrances is a refusal to comply with the Austrian demands.

The note declares that for military reasons Montenegro must refuse to permit civillans to leave Scutari and that she cannot allow the Austro-Hungarian consul in Scutari to take part in the inquiry into the death of the priest Palle or the alleged coercive conversion of Catholics, declaring that such an investigation by a foreign official would be incompatible with the sovereign rights of the king of Montenegro.

Finally, the reply contains some evasive remarks concerning the alleged molestation of the Austrian steamer Skodra at San Glovanni di Medua. Austria demanded the punishment of the military and civil officials responsible for ordering Captain Blasich to assist in landing Servian troops and war munitions and to help rescue drowning men from transports which the Turkish cruiser Hamidieh had sunk.

Blockade Raised.

WASHINGTON, March 22.—The Greek government has raised the blockade on the coast of Epirus from Prevesa, northward to 40 degrees 4 minutes north latitude, according to official reports today from the American legation at Athens. German Steamer Seized.

BREMEN, March 22—Greek warships today seized the German steamer Irmingard off the island of Lemnos, in the Asgean sea. She sailed from Barry, Wales, on February 28 for Genoa. No details of the reason for her capture are given in the telegram received by the owners.
